What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Lux Multimanager SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However, the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

The objective for the Sub-Fund is to provide investors with access to a competitive risk-adjusted return over the recommended investment period, while benefiting from the liquidity and transparency of publicly traded instruments of companies whose primary business activities include private debt, direct lending, making structured credit investments and/or managing private debt/structured credit portfolios.

The Sub-Fund mainly invests in Transferable Securities of publicly traded companies whose primary business activities include private debt, direct lending, making structured credit investments and/or managing private debt/structured credit portfolios.

These companies are domiciled in both developed and Emerging Markets and are listed on regulated markets or exchanges that are members of the World Federation of Exchanges.

In order to pursue its investment strategies, the Sub-Fund will invest in the instruments detailed below and will obey all the restrictions detailed in the prospectus.

The permitted instruments include the following:

- Equities and Equity-linked Instruments, including up to 5% of its net assets in P-notes and up to 15% of its net assets in depositary receipts (ADR/GDR with no embedded derivatives);
- Up to 50% of its net assets in listed closed UCIs and financial instruments that qualify as Transferable Securities while respecting the diversification rules as per the UCITS Law;
- Money Market Instruments;
- Up to 15% of its net assets in equities of companies domiciled in Emerging Markets;
- Up to 10% of its net assets may be invested in instruments not listed on regulated markets nor members of World Federation of Exchanges;
- Deposits with credit institutions;
- Up to 10% of its net assets in UCITS/UCIs.

The Sub-Fund will not use derivatives.

For the avoidance of doubt, direct investments in the Private Debt will not be permitted, as provided by the 2010 Law.

Through a dynamic investment approach, the Investment Manager selects investments based on fundamental analysis (bottom-up) by applying a four-step process: Screening, Security Selection, Portfolio construction, Risk Management and Monitoring. The asset allocation is flexible, and the focus is on selecting high quality investments that are priced in the market with relative value to NAV. Diversification and risk management is a central part of the portfolio construction to mitigate single-investment risks. The Investment Manager is a long-term investor and have the patience to wait until the investment case unfolds.

This Class is cumulative. Dividend distributions are not planned.

Benchmark The Sub-Fund does not have a benchmark.

Base Currency EUR.

INTENDED RETAIL INVESTOR

The product is available for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years and more as the excess return targeted for the Sub-Fund can be expected to materialize over time.

What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

What happens if BIL Manage Invest S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

| Investment of EUR 10 000 | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | EUR 122 | EUR 890 |
| Annual cost impact (*) | 1.2% | 1.2% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.5% before costs and 9.3% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | There is no entry fee for this product. | EUR 0 |
| Exit costs | There is no exit fee for this product. | EUR 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.93% of the value of your investment per year. This is an estimate based on actual costs over the last year. | EUR 93 |
| Transaction costs | 0.29% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | EUR 29 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | EUR 0 |

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.
