OBJECTIVES
The objective for the Sub-Fund is to provide investors with access to a competitive risk-adjusted return over the recommended investment period, while benefiting from the liquidity and transparency of publicly traded instruments of companies whose primary business activities include private debt, direct lending, making structured credit investments and/or managing private debt/structured credit portfolios.

The Sub-Fund mainly invests in Transferable Securities of publicly traded companies whose primary business activities include private debt, direct lending, making structured credit investments and/or managing private debt/structured credit portfolios.
